

ASK-4® #601 Kit

The ASK-4® #601 is a single zone audio monitoring system with a wall mounted mute switch. This system is designed to interface with a NVR, video system or other recording devices that accept line level input. The APR-1 Audio Base Station contains a built-in speaker and volume control for producing **live audio and audio playback**. The Verifact® A is designed for ceiling. The MS-1 is an illuminated mute switch that can use to mute the microphone output. It is commonly used for interrogation rooms.

APR-1:

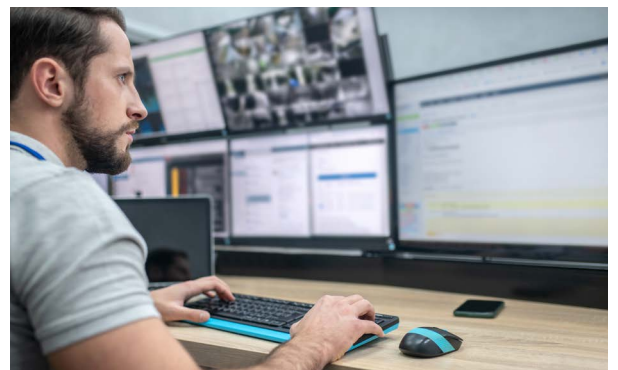

- Line level audio output (RCA) to NVR
- Base station with 3" speaker for monitoring live audio and playback from a NVR
- Durable, high impact ABS housing
- 3.5 mm headphone jack for private listening

Verifact® A:

- Omni-directional, within 30' diameter circle
- High impact anti static ABS microphone housing
- Can be placed up to 1000' away from the base station

MS-1:

- LED rocker switch on stainless steel, single gang faceplate
