

NEW PRODUCT

IP AUDIO,  
INDOOR/OUTDOOR  
PAGING HORN &  
MICROPHONE

# TLO-D DigiFact® D (LE-889)

Network Connected

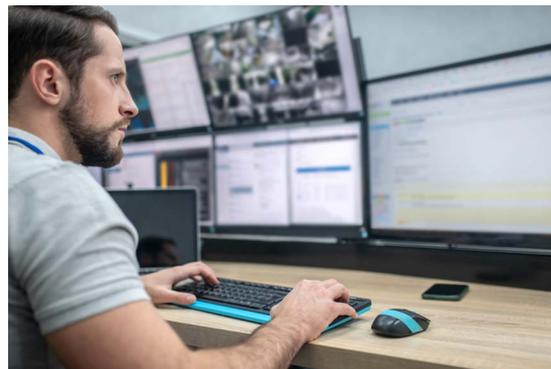

A two-way IP communications device that features a 15 watt amplified horn with high volume and an **omni-directional** ECM microphone. With superior sound capture, easy configuration of network connectivity and software access that support VMS & SIP technologies. Intended for indoor/outdoor settings, the TLO-D provides **both listen and talk back capabilities**. Easily connects to any POE network switch with a single network cable.

## Features:

- Heavy duty ABS resin horn speaker with microphone
- Supports triggering of pre-recorded messages
- ONVIF & SIP Compliant
- Codecs: MP3, G.722, PCMU, PCMA, OPUS
- Max Horn SPL, 113 dB, Microphone Pickup (30 ft.)

## Benefits:

- Superior sound and durability
- React to emergency events with pre-recorded messages, alarms, and live voice responses
- Plug-and-play installation with easy connectivity to most VMS networks
- Two-way IP communication
